EDUCATION

Maharaja Surajmal Institute of Technology, Delhi

Sep 2023 – Aug 2027

B.Tech in Computer Science Engineering

CGPA: 9/10

– **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Software Engineering, Database Management Systems, Object-Oriented Programming

EXPERIENCE

BiggBrains Solutions Pvt. Ltd.

July 2026 – September 2026

SDE Intern

New Delhi, India

- Worked on 5 client projects, contributing to frontend development and feature implementation.
- Developed and integrated REST APIs to support financial workflows and application features.
- Leveraged AI development tools including Cursor, Claude, and other AI assistants for daily coding, debugging, refactoring, and development workflows.

PROJECTS

Coder CLI AI Developer Assistant  | Javascript, Python, OpenAI LLM

- Designed and developed an agentic AI developer assistant integrating GPT-4.1 and Gemini 2.5 Flash for code generation, QA, and task automation.
- Built tool-using workflows that connect LLMs with external APIs and services, including weather APIs and GitHub automation.
- Integrated MCP and Agent SDK to enable controlled tool invocation and interaction with external systems.

Exam Buddy — AI Powered Exam Preparation Bot  | Python, LangChain, RAG

- Designed and built an AI-powered learning system for document summarization, question generation, and contextual conversational learning.
- Developed a RAG architecture using LangChain and Hugging Face Transformers to process PDFs and YouTube lecture content and provide grounded responses.
- Built an evaluation workflow using RAGAS, DeepEval, and LangSmith to evaluate retrieval and generation quality and identify failure cases.

MyFinance — AI Powered Portfolio Management Platform  | Next.js, React.js, TypeScript

- Developed a full-stack financial platform for portfolio tracking, market data, transactions, and investment performance.
- Built FinGenius, an AI-powered financial assistant using LLM APIs for financial QA and stock market insights.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, TypeScript, PHP, Rust, GoLang

Developer Tools: VS Code, Firebase, Appwrite, IntelliJ IDEA Ultimate, Vercel, AWS Cloud Computing

Technologies/Frameworks: Linux, GitHub, ReactJS, Redux, NextJS, NodeJS, ExpressJS, Laravel, Git, SQL, PostgreSQL, Docker, RESTful APIs, Scrum, Agile, CI/CD

Generative AI/LLM Tools: LangChain, Agent SDK, LLM APIs (GPT, Gemini), n8n, MCP, RAG, NLP

EXTRACURRICULAR

McKinsey 

April 2025 – June 2025

Forward Training Programme Student

- * Selected among top candidates to participate in a 10-week programme by McKinsey.
- * Learned team management, leadership, and professional communication skills.

CERTIFICATIONS

- AI for Beginners — HP
- AI-ML Engineer Foundation Course — Reliance Foundation
- Cloud Practitioner — AWS
